

Tutor Name	Marge Hurst	Class Code	MAHUF2
Tutor Country	New Zealand	Class Duration	2 days
Category	Colour	Difficulty level	Beginner to Advanced
Class cost	\$240	Materials cost	\$0

A sewing machine ~~IS~~ / IS NOT required for this class

Do not purchase any items until you have received confirmation of your acceptance into this class.

Fabric and thread requirements

Fabrics or threads or whatever medium you use:

- An assortment of small scraps which include at least some of the colours in your magazine pictures. I will bring several bags full of fabric and thread scraps for students to use too.
- Several 4 or 6 inch squares of fabric in multicoloured largish prints (at least 3)
- If you have fabric, please bring as many 1 inch different squares as you can, no more than a hundred. Try to have a range of pale to very dark.

margehurst@gmail.com mhurst@top.net.nz www.margehurst.com or <https://www.facebook.com/margehurstquilts/>

General Requirements

- A notebook of some sort. Either a three ring binder, or a clear display book with clear file pages into which you can slip your examples. One which allows for additional pages is ideal. Esslette file folders usually have at least a dozen pages, and several dozen more can be added inexpensively
- At least 3 dozen sheets of white A4 paper
- Coloured pens or pencils or watercolours (some will be available for you to use if you have none)
- Shears/scissors for paper
- Glue stick
- Camera, iPad, netbook or phone with the ability for photographing (Charge before class!)
- Pencil/pen and paper for notes
- Multicoloured scenic or decorating pictures from magazines A4 size, at least a dozen

Important notes

Please bring a cushion in case your chair height doesn't suit and your usual sewing equipment.

Your sewing machine should be recently serviced, oiled with a new needle.

Health and Safety regulations require your machine must have had the power supply cord tested by a registered electrician within the last year. Any extension cords must also be tested. Multi boxes must have surge protection and have been checked in the last year. We will have on-site certification available on Registration Day.
